NEW HEAVENLY WONDER.

Tail of New Comet Visible in Southwest Horizon Shortly After Sunset.

Special to the Eagle.

New York, May 28.—A new comet which is flying through space at the rate of many million miles a minute may be seen by the naked eye just after sunset any evening in the southwest horizon, according to Edwin Fairfax Nauty, an astronomer, who has confirmed the discovery on Monday of the comet by Professor Brooks of Harvard. Mr. Nauty says the new comet is speeding toward the sun and should be visible for a number of days yet. Because of the direction of the comet's flight and the relative position of the earth, its head is not visible, but Mr. Nauty and Professor Brooks say that its tail, which is several miles in length, can be clearly detected. The astronomers agree that there is no danger of a collision with the earth.

OWLS 12, ELKS 4.

The "day sleepers" defeated the "fleet footed tribe of Elks" in a game of baseball yesterday afternoon played on the Allen Academy grounds.

Both teams played good ball, but the Owls bunched their hits so as to run up the score and kept the "safties" slammed out by the Elks few and far between.

The Owls claim the championship of town and are ready to tackle anything from the Major League down to the Elks.

Quite a nice crowd witnessed the game and baseball promises to be a pleasing diversion for the summer afternoons.

\$25 AND COSTS.

Robert Monroe, a burly son of Africa called on County Judge A. G. Board this morning and plead guilty to a charge of theft.

Monroe meandered away from the I. & G. N. coal chute a few nights ago with another negroes coat and watch and was fast making for the tall timbers when Sheriff Conlee overtook him at Still Creek and invited him to spend the night with him in such a forceful way that he couldn't refuse.

Judge Board fined him \$25 and costs amounting to about \$55.

The coat and watch were returned to their proper owner as on the County Road Gang they don't work in coats, and watches don't figure out \$55 at fifty cents a day.

T. W. C. COMMENCEMENT.

Undergraduates Recital, Art Display and Reception Yesterday Afternoon, Graduates Recital at Night.

The fourth annual session of the Texas Womans College is fast drawing to a close. The commencement exercises began last Sunday morning with the commencement sermon by Rev. T. Y. Adams of Calvert, and will conclude with the baccalaureate address and graduating exercises at the First Baptist church tonight.

The session has been a profitable and successful one and those who have been attending the exercises, have been most favorably impressed with the exceedingly high merit of everything done. From the excellence of the exercises of every kind, it is evident that the work being done is thorough and complete.

Quite a nice audience assembled at the college at 4 o'clock yesterday afternoon for the art display and reception and also the undergraduates music recital which was postponed from the night before on account of the weather.

The work of the students in the art department which was conducted the first part of the session by Miss Frank Broome and the latter part by Miss Mihills, was simply fine and would have been a credit to a college much larger and much older. A great many paintings, water colors, crayons, and work of various kinds were on display, and the collection was a complete revelation to the people as to just what was being done.

The undergraduates music recital was a gem within itself and was enjoyed by every person in the audience. Those taking part acquitted themselves splendidly, showing careful and painstaking study and practice, as well as thorough instruction and training.

The program of the recital was as follows:

PROGRAM.

1. Organ: Capriccio..... Faulkes
Miss Harris

9. Piano: (a) Chopin.....Godard
(b) The Two Larks.....Leschetizky
Miss Chance

GRADUATES RECITAL.

The First Baptist church was crowded to the doors last night with a large and cultured audience to hear the work of those who have concluded the course in music. There were but two graduates—Miss Gussie Buchanan in voice, and Miss Pauline Webb in piano. They were assisted by Mr. Graham, director of the music department, Miss Vanardo, assistant, and Miss Irma Harris a pipe organ student. The recital was pronounced by competent critics to have been a finished piece of art, and a credit to the Texas Womans College, or to any college in Texas.

The program of the evening was as follows:

PROGRAM.

1. Prelude.....Rachmaninoff
Miss Webb
2. (a) My Neighbor.....Thomas

BANK GUARANTY SUBJECT OF DEBATE.

Special to the Eagle.

Detroit, Mich., May 28.—A debating team from Notre Dame University are here to engage in a contest tonight with representatives of the Detroit College of Law. The visiting team is composed of Edward Carville of Elko, Nev., Frank C. Walker of Butte, Mont., Paul E. Donovan of Woodstock Ill., and James E. Dercey of Indianapolis. "Bank Guaranty Under Control of the Federal Government" has been chosen as the subject for debate.

BITTLE A. AND CAPTAIN.

The Agricultural and Mechanical College baseball team elected George Frederick Howard Bittle, known to his associates as "Pete," and who plays third base, to be captain of the team next year. A. L. Ward of Houston was made business manager for the baseball team and L. P. Looney, manager of the track team.

FIRST CARLOAD WATERMELON SHIPMENT.

Special to the Eagle.

Brownsville, Texas, May 28.—The first solid car load of watermelons to be shipped from the lower Rio Grande Valley this season will be loaded at McAllen today or tomorrow of this week. The car will be shipped jointly by the McIntock, Griesenauer, Crutchfield and Horne farms. The melons are matured and of good size. Two or three carloads will go out from McAllen next week. Other points in the valley expect to begin shipping next week also.

Special to the Eagle.

Corpus Christi, Texas, May 28.—A car of watermelons and cucumbers, the first from this county, was shipped to Northern markets yesterday.

GOOD PROSPECTS FOR TEXAS FARMERS' CONGRESS.

President E. W. Kirkpatrick and Secretary T. W. Larkin, of the Texas Farmers' Congress, were in Dallas last week, and informed Farm and Ranch that the prospects for the next Farmers' Congress meeting at College Station, Texas, July 27, 28, 29 and 30, are most flattering. While the official program of the general meeting has not been announced, a number of unquestioned authority and national reputations as experts will address the gatherings on questions of present importance. Letters received from all parts of the state indicate a very great number of people will attend the meetings. The college authorities are making thorough preparations for the entertainment of the visitors and a great impetus to the agricultural movement is expected to result from this congress.—Farm and Ranch.

BASKETBALL BOYS REMEMBERED.

The Athletic Association of Allen Academy did the proper thing by the members of the Basketball team. At the closing of the session each member of the team was presented with an elegant sweater in recognition of the splendid playing of the team as a whole, and by each individual member. The team, it will be remembered defeated everything that came against them and were easily the champions of Texas and the South. The sweaters are old gold, with blue trimmings, the Academy colors, and have the AA monogram worked in blue on the breast.

EXPERIMENTS IN EAST TEXAS.

Various Experiments Beneficial to Farming Interests.

College Station, Tex., May 28.—Some interesting results have been obtained at the Troupe experiment station, which is a branch of the main Texas experiment station located at the A. and M. College of Texas, of far reaching importance to the farmers of East Texas. A bulletin by the superintendent, Mr. Hotchkiss, is now in press and will be ready for distribution in a short time, setting forth some of the results.

For example, out of more than 100 varieties of grapes it has been shown that only a few will succeed in East Texas. The best of these are the Brilliant, Champion, Concord, Delaware, La Salle, Neva, Munson, Niagara, Norton, Romal, R. W. Munson, San Jacinto and Wyoming Red.

The apricot trees at the station have made a good growth and bloomed each year for three years past, but have failed to set a full crop of fruit. The indications are that two varieties—Rosal and Gold Drop—will mature fruit this season for the first time.

Harry Vetch, sown last October on fresh land made a good growth thru the winter, and produced a ton of hay to the acre this spring. The same crop on old land and sowed at the same time, failed entirely.

Experiments with crops growing between the rows of peach trees seemed to show conclusively, according to the annual report of the station, that no crops should be raised in the orchard during the early growing season. Corn grown between the rows resulted in the greatest injury while early tomatoes, cotton, and early cowpeas checked the growth to a marked degree. Cowpeas and peanuts planted as late as the middle of June gave better results than any other crop during the summer. The plots upon which oats and vetch were grown during the winter and plowed under in the spring, held their foliage later than the clean cultivated plants or those that had other crops growing on them.
